Fitness Coach

Dedicated fitness professional and kinesiology grad with a background in high-intensity group coaching and personalized strength training. I combine a deep academic foundation in biomechanics and physiology with practical experience leading diverse populations through sustainable, longevity-focused exercise through a relentless focus on technical precision and movement quality. After a successful two-decade career as a software engineer, I am transitioning into the fitness industry, bringing a high level of professional maturity, systematic program design, and clear communication to coaching. I am committed to delivering high-quality member experiences by merging technical movement standards with a supportive, community-driven approach.

WORK EXPERIENCE

CrossFit City Limits — **Jul 2024 - Present**
CrossFit Coach — **Austin, TX**

- Lead high-intensity group classes for diverse populations, managing groups of 5-15 athletes while ensuring individual safety and maintaining optimal movement quality.
- Design and implement targeted warm-up protocols and cool-down recovery sequences tailored to the daily workout's demands.
- Onboard new members using a longevity-first approach, emphasizing injury prevention and sustainable intensity over max effort to promote long-term fitness adherence.
- Deconstruct technical Olympic lifting and gymnastic movements for a wide range of skill levels, ensuring foundational mechanics are mastered before adding load.
- Apply real-time regressions and modifications based on athlete's injury history and experience, ensuring the intended stimulus is achieved without overreaching.
- Cultivate a supportive, small-gym environment by facilitating member connections and leading intentional post-workout debriefs to reinforce community and progress.

RecSports (UT-Austin) — **Aug 2024 - Dec 2025**
Personal Trainer Level 1 — **Austin, TX**

- Design and implement customized training programs rooted in strength and conditioning principles, focusing on hypertrophy, strength, and metabolic conditioning.
- Maintained a 100% client retention rate by fostering long-term relationships through consistent results and personalized coaching.
- Conduct initial consultations and movement screening to help clients determine their fitness goals.
- Apply deep knowledge of anatomy and biomechanics to correct client form to reduce injury and improving movement efficiency.
- Manage a roster of 5-10 clients, tracking progressive overload data and adjusting short and long-term cycles based on performance and feedback.
- Educate clients on lifestyle factors, including recovery, nutrition, and stress management, to provide a full-stack approach to health and wellness.
